4.b. Early and periodic screening, diagnosis, and treatment services: (continued)

For purposes of the child's transition to outpatient psychotherapy, the child may receive two additional psychotherapy visits per six-month episode of therapeutic support of foster care if the mental health professional providing the therapeutic support of foster care works with the provider of outpatient psychotherapy to facilitate the child's transition from therapeutic support of foster care to outpatient psychotherapy services and to coordinate the child's mental health services.

Page 17dd

- J. Services provided to the foster family that are not directed exclusively to the treatment of the recipient.
- 6. Services provided to recipients with severe emotional disturbance residing in a children's residential treatment facility are limited to:
  - A. Intake, treatment planning and support. This includes developing, monitoring and revising the treatment plan, recording the recipient's medical history, providing a basic health screening and referring for health services if necessary, assisting in implementing health regimes, medication administration and monitoring, coordinating home visits when consistent with treatment plan goals, coordinating discharge and referral for aftercare services, and travel and paperwork related to intake, treatment planning and support.
  - B. Psychological examinations, case consultation, individual and group psychotherapy, and counseling. It includes testing necessary to make these assessments.
  - C. Skills development. This means therapeutic activities designed to restore developmentally appropriate functioning in social, recreational, and daily living skills. It includes structured individual and group skills building activities.

It also includes observing the recipient at play and in social situations, and performing daily living activities and engaging in on-the-spot intervention and redirection of the recipient's behavior consistent with treatment goals and ageappropriate functioning.

Page 17ee

Family psychotherapy and skills training designed D. to improve the basic functioning of the recipient and the recipient's family in the activities of daily and community living, and to improve the social functioning of the recipient and the recipient's family in areas important to the recipient's maintaining or re-establishing residency in the community. This includes assessing the recipient's behavior and the family's behavior to the recipient, activities to assist the family in improving its understanding of normal child development and use of parenting skills to help the recipient achieve the goals of the treatment plan, and promoting family preservation and unification, community integration, and reduced use of unnecessary outof-home placement or institutionalization. Family psychotherapy and skills training is directed exclusively to treatment of the recipient.

#### Covered services are:

- Provided pursuant to an individual treatment plan based on recipients' clinical needs;
- Developed with assistance from recipients' families or legal representatives; and
- Supervised by a mental health professional.

4.b. Early and periodic screening, diagnosis, and treatment services: (continued)

Personal care services identified in an Individualized 7. Family Service Plan (IFSP) or Individualized Education Plan (IEP) and provided by school districts to children during the school day.

- The services must meet all the requirements otherwise applicable under item 26 of this Attachment if the service had been provided by a qualified, enrolled provider other than a school district, with the following exceptions:
  - Α. a personal care assistant does not have to meet the requirements of page 76-76a and need not be an employee of a personal care provider organizations:
  - В. assessments, reassessments and service updates are not required;
  - C. Department prior authorization is not required;
  - D. a physician need not review the IEP;
  - Ε. a personal care assistant is supervised by a mental health professional, registered nurse, public health nurse, school nurse, occupational therapist, physical therapist, or speech pathologist;
  - service limits as described in this item do F. not apply;
  - PCA Choice is not an option; G.
  - only the following services are covered: Η.
    - 1) bowel and bladder care;
    - 2) range of motion and muscle strengthening exercises:
    - transfers and ambulation;
    - 4) turning and positioning;

#### 4.b. Early and periodic screening, diagnosis, and treatment services:

- Early and periodic screening, diagnosis and treatment service is a service provided to a recipient under age 21 to detect, prevent, and correct physical and mental conditions or illnesses discovered by screening services, and to provide diagnosis and treatment for a condition identified according to 42 CFR 441.50 and according to section 1905(r) of the Social Security Act.
- Initial and periodic screenings are provided as indicated by the periodicity schedule. Interperiodic screens are available to recipients based on medical necessity. An EPSDT service can be requested by the recipient or performed by a provider at any time if medically necessary.
- Initial face-to-face and written notifications of recipients are followed up by county agencies with telephone contacts, letters, and/or home visits. Annual or periodic written renotifications may also be supplemented by personal contacts.

The following are in excess of Federal requirements:

Screened recipients receive a written copy of any abnormal screening findings.

The following health care not otherwise covered under the State Plan is covered for children by virtue of the EPSDT provisions of Title XIX:

### Rehabilitative services as follows:

Professional home-based mental health services for 1. children are culturally appropriate, structured programs of intensive mental health services provided to a child who is at risk of out-of-home placement because of the severe emotional disturbance. For purposes of item 4.b., a child eligible for homebased mental health services means a child who meets the functional criteria defined in Supplement 1 of this Attachment for purposes of targeted case management, or a child who has an emotional disturbance and who meets one of the following criteria:

Effective: April 10, 2001 Page 16a

TN: 01-05 Approved:

Supersedes: 00-09

## 4.b. <u>Early and periodic screening, diagnosis, and treatment services:</u> (continued)

- A. the child has been admitted within the last three years or is at risk of being admitted to inpatient treatment or residential treatment for an emotional disturbance;
- B. the child is a Minnesota resident and is receiving inpatient treatment or residential treatment for an emotional disturbance through the interstate compact;
- C. the child has one of the following as determined by a mental health professional:
  - 1. psychosis or a clinical depression;
  - risk of harming self or others as a result of an emotional disturbance; or
  - 3. psychopathological symptoms as a result of being a victim of physical or sexual abuse or of psychic trauma within the past year; or
- D. the child, as a result of an emotional disturbance, has significantly impaired home, school or community functioning that has lasted at least one year or that, in the written opinion of a mental health professional, presents substantial risk of lasting at least one year.

The services are for the purposes of resolving an acute episode of emotional disturbance affecting the child, reducing the risk of the child's out-of-home placement, reunifying and reintegrating the child into the child's family after an out-of-home placement. The services are provided primarily in the child's residence but may also be provided in the child's school, the home of a relative of the child, a recreational or leisure setting or the site where the child receives day care.

A child (under age 21) is eligible for home-based mental health services, based on the results of a diagnostic assessment conducted or updated by a mental health professional within the previous 180 days. The diagnostic assessment must have determined that the child meets the functional criteria

Effective: April 10, 2001

4.b. <u>Early and periodic screening, diagnosis, and treatment services: (continued)</u>

outlined, above, and is in need of home-based mental health services.

Page 16b

The following entities are eligible to provide home-based mental health services:

- A. outpatient hospitals;
- B. community mental health centers;
- C. community mental health clinics;
- D. an entity operated by or under contract to the county to provide home-based mental health services. A contracting entity cannot assign any contractual rights or obligations to a third party who is not an employee of the entity; and
- E. an entity operated by or under contract to a children's mental health collaborative to provide home-based mental health services. A contracting entity cannot assign any contractual rights or obligations to a third party who is not an employee of the entity.

A provider of home-based health services must be capable of providing all of the components specified below. However, a provider is responsible to provide a component only if the component is specified in a child's individual treatment plan. Component A is covered as a mental health service under items 2.a, 5.a., 6.d.A. and 9 of this Attachment. Components B and C are covered as professional home-based therapy services.

- A. diagnostic assessment;
- B. individual psychotherapy, family psychotherapy, and multiple-family group psychotherapy; and
- C. individual, family, or group skills training that is designed to improve the basic functioning of the child and the child's family in the activities of daily and community living, and to improve the social functioning of the child and the child's family in areas important to the

child's maintaining or re-establishing residency in the community. For purposes of this item, "community" means the child's residence, work, school, or peer group. The individual, family, and group skills training must:

- 1. consist of activities designed to promote skill development of both the child and the child's family in the use of age-appropriate daily living skills, interpersonal and family relationships, and leisure and recreational services;
- 2. consist of activities which that will assist the family to improve its understanding of normal child development and to use parenting skills that will help the child achieve the goals outlined in the child's individual treatment plan; and
- 3. promote family preservation and unification, community integration, and reduced use of unnecessary out-of-home placement or institutionalization of eligible children.

To be eligible for MA medical assistance payment, the provider of home-based mental health services must meet the requirements in items A to through F, below.

- A. the service under component B, above, must be provided by a mental health professional skilled in the delivery of mental health services to children and their families.
- B. the services under component C, above, must be provided by mental health professionals and mental health practitioners who are skilled in the delivery of mental health services to children and their families.
- C. the services must be designed to meet the specific mental health needs of the child according to the child's individual treatment plan that is developed by the provider and that specifies the treatment goals and objectives for the child.

Early and periodic screening, diagnosis, and treatment services: (continued)

- the provider must provide, or assist the child or D. the child's family in arranging crisis services for the child and the family of a child which that must be available 24 hours per day, seven days a week.
- the caseload of a home-based mental health Ε. service provider must be of a size that can reasonably be expected to enable the provider to meet the needs of the children and their families in the provider's caseload and permit the delivery of the services specified in the children's individual treatment plans.
- the services must be coordinated with the F. child's case manager for mental health services if the child is receiving targeted case management services.

Payment is limited to the following components of homebased mental health services:

- Α. diagnostic assessment
- individual psychotherapy, family psychotherapy, В. and multiple-family group psychotherapy
- individual skills training, family skills training, and group skills training
- time spent by the mental health professional and D. the mental health practitioner traveling to and from the site of the provision of the home-based mental health services is covered up to 128 hours of travel per client in a six month period. Additional travel hours may be approved as medically necessary with prior authorization.

The services specified in A through J below are not eliqible for MA medical assistance payment:

Α. family psychotherapy services and family skills training services are not covered unless the services provided to the family are directed exclusively to the treatment of the recipient. Medical assistance coverage of family psychotherapy services and family skills training services is limited to face-to-face sessions at which the recipient is present throughout the therapy session or skills development session, unless the mental health professional or

Psychotherapy services are not covered unless the services, when provided to the family, are directed exclusively to the treatment of the recipient.

Family community support services for children are services provided by mental health professionals or mental health practitioners under the clinical supervision of a mental health professional, designed to help each child to function and remain with their family in the community. For purposes of item 4.b., a child eliqible for family community support services means a child under age 18 who has been determined, using a diagnostic assessment, to be a child with severe emotional disturbance (or, if between ages 18 and 21, a person who has been determined to have a serious and persistent mental illness) who meets the functional criteria defined in Supplement 1 of this Attachment for purposes of targeted case management, or a child who meets one of the criteria listed on page 16a, items A-D for professional home-based mental health services.

The diagnostic assessment must have determined that the child meets the functional criteria outlined above and is in need of family community support services.

An entity operated by or under contract to the county to provide family community support services is eligible to provide family community support services. Such entities include, but are not limited to:

- A. outpatient hospitals;
- B. community mental health centers; and
- C. community mental health clinics.

A provider of family community support services must meet the qualifications in items A to F and, if applicable, item G, below:

A. the provider must be able to recruit mental health professionals and <u>mental health</u> practitioners, must have adequate administrative ability to

ensure availability of services, and must ensure adequate pre-service and in-service training.

Page 16k

- B. the provider must be skilled in the delivery of mental health services to children with severe emotional disturbance and must be capable of implementing services which that address the needs identified in the child's treatment plan.
- C. the mental health professional involved in a child's care must develop and sign the treatment plan and periodically review the necessity for treatment and the appropriateness of care.
- D. The provider must provide, or assist the child or the child's family in arranging emergency services for the child and the child's family.
- E. if the child has no assigned case manager or refuses case management services (and the county board has not done so), the provider must ensure coordination of the components of family community support services.
- F. if the county board has not done so, the provider must ensure that family community support services are given in a manner consistent with national core values for child adolescent services.
- G. A provider offering mental health behavioral aide services must:
  - 1) recruit, train, and supervise mental health
    behavioral aides;
  - 2) conduct a background study of each potential mental health behavioral aide; and
  - not employ a mental health behavioral aide applicant if the applicant does not qualify for licensure pursuant to Minnesota Statutes, section 245A.04, subdivision 3d.

### 4.b. Early and periodic screening, diagnosis, and treatment services: (continued)

- recognize factors precipitating a mental health 1. crisis:
- identify behaviors related to the crisis; and 2.
- be informed of available resources to resolve the 3. crisis. Such assistance is designed to address abrupt or substantial changes in the functioning of the child or the child's family evidenced by a sudden change in behavior with negative consequences for well being, a loss of coping mechanisms, or the presentation of danger to self or others. The services focus on crisis prevention, identification, and management. Crisis assistance service components are:
  - a) crisis risk assessment;
  - screening for hospitalization; and b)
  - c) referral and follow-up to suitable community resources; and .
  - planning for crisis intervention and <del>d)</del> counseling services with other service providers, the child, and the child's family.

Crisis assistance services must be coordinated with emergency services. Emergency services must be available 24 hours per day, seven days a week;

mental health crisis intervention and crisis <u>D.</u> stabilization services. Mental health crisis intervention and crisis stabilization services focus on intensive, immediate, on-site short-term mental health services by a mobile crisis response team to help a child return to the child's baseline level of functioning. A mobile crisis response team is comprised of at least two mental health professionals or at least one mental health professional and one mental health practitioner under the clinical supervision of the mental health professional. At least one member of the team provides on-site intervention and stabilization services.

Effective: April 10, 2001

TN: 01-05 Approved:

4.b. <u>Early and periodic screening</u>, <u>diagnosis</u>, <u>and treatment</u> services: (continued)

Mental health crisis intervention and crisis stabilization services components are:

- 1. a culturally appropriate assessment evaluating the child's:
  - a) current life situation and sources of stress;

Page 16n

- b) current mental health problems, strengths, and vulnerabilities; and
- c) current functioning and symptoms;
- 2. development of a written, short-term crisis intervention plan within 72 hours of the first intervention. The mobile crisis response team must involve the child and the child's family in developing and, if appropriate, implementing the short-term mental health crisis intervention plan under clauses a) or b), below.
  - a) if the child shows positive change toward a baseline level of functioning or decrease in personal distress, the mobile crisis response team must document the medically necessary mental health services provided, that treatment goals are met, and that no further mental health services are required.
  - b) if the child is stabilized and requires
    less than eight hours of mental health
    crisis intervention services or a
    referral to less intensive mental health
    services, the mobile crisis response team
    must document the referral sources, the
    treatment goals, the medical necessity
    for mental health services, and the types
    of mental health services to be provided.

TN: 01-05
Approved:

Supersedes: 00-09

4.b. <u>Early and periodic screening</u>, <u>diagnosis</u>, <u>and treatment services</u>: (continued)

If the child and the child's family refuse to approve the short-term crisis intervention plan, the mobile crisis response team must note the refusal and the reason(s) for refusal; and

if more than eight hours of mental health crisis intervention services are needed, development of a written long-term intervention plan. The purpose of the long-term intervention plan is to identify strategies to reduce symptomatology of emotional disturbance or mental illness, coordinate linkage and referrals to community mental health resources, and prevent placement in a more restrictive setting such as foster care, an inpatient hospital, or a children's residential treatment facility.

Mental health crisis intervention and crisis stabilization services are limited to no more than 192 hours per calendar year. The services must be coordinated with emergency services and must be available 24 hours a day, seven days a week;

E. medically necessary mental health services provided by a mental health behavioral aide. Mental health behavioral aide services are designed to improve the functioning of the child in activities of daily and community living. The mental health behavioral aide services must implement goals in the child's individual treatment plan that allow the child to replace inappropriate skills with developmentally and therapeutically appropriate daily living skills, social skills, and leisure and recreational skills through targeted activities.

Mental health behavioral aide services are provided in the child's home, preschool, school, day care, and other community or recreational settings. Mental health behavioral aide services components are:

1. assisting the child as needed with skill development in dressing, eating, and toileting;
